Re: Application Number: 09/849,582  
 Filing Date: 05/05/2001  
 Sole Applicant/Inventor: David Andrew D'Zmura (independent inventor)  
 Title of Invention: Astrologic

**Preliminary Amendment**

Dear Madam or Sir:

Please enter this Preliminary Amendment to my Application Number 09/849,582. Please delete the claims I originally filed, numbered claim 1 through claim 3, i.e. please delete the pages on which these claims are found, page 92 to page 94. Please enter my new claims, numbered claim 4 through 33. These claims are entered on added pages, page 96 to page 111. The Abstract is found on page 95, of my Application No. 09/849,582, as I originally filed it.

Of the new claims, the claim 4 through the claim 30 correspond exactly to the claims I have presented into my parent PCT International Application, PCT/US00/28838, wherein the claim 4, the claims 11 through 23, the claim 25, the claim 27 and the claim 30 are entered unchanged from the claims I entered under Article 19 and with the Demand in the PCT parent which were allowed in the Written Opinion, Form 408, in the examination of the PCT parent.

Of the new claims, the claims 5 though 10, and the claims 24, 26, 28 and 29, are revisions based upon the critique found in the Written Opinion. These claims I have submitted into my PCT parent in my Reply to the Written Opinion of 11 Feb. 2002. The new claim 31 is identical to the claim 3 presented in 09/849,582 on its page 94. The claims 32 and 33 are new. Thank you for promptly entering this Preliminary Amendment. Please confirm your receipt.

Sincerely,

David Andrew D'Zmura
